PROFESSIONAL SUMMARY

Detail-oriented and motivated Computer Science fresher with hands-on experience in data analytics using Python, SQL, Excel, and Power BI. Skilled in transforming raw datasets into actionable business insights through interactive dashboards and automated reporting. Certified in Data Analytics by Simplilearn and Deloitte. Actively seeking a Data Analyst / Business Intelligence role to apply and grow my technical skills.

EDUCATION

Bachelor of Technology – Computer Science & Engineering | Expected: May 2026

Dr. A. P. J. Abdul Kalam Technical University, Lucknow

Class XII – CBSE | 2022

Class X – CBSE | 2020

TECHNICAL SKILLS

Data Analysis & Visualization: Power BI (DAX, data modelling, interactive reports), Advanced Excel (Pivot Tables, Slicers, VLOOKUP, Macros)

Programming & Databases: Python (Pandas, NumPy), SQL (MySQL, PostgreSQL – joins, aggregations, subqueries)

Tools & Platforms: Microsoft Office Suite, Jupyter Notebook, VS Code, Git & GitHub

Soft Skills: Analytical thinking, Problem solving, Attention to detail

Languages: English (Professional), Hindi (Native)

PROJECTS

Interactive Sales Dashboard – Advanced Excel | [Excel](#), [Pivot Tables](#), [Slicers](#), [Macros](#), [VBA](#)

- Built a dynamic sales dashboard using Pivot Tables, Slicers, and Macros to enable one-click filtering across 5+ product categories.
- Automated repetitive monthly reporting tasks using VBA Macros, reducing manual effort by ~40%.
- Designed visually intuitive charts and KPI tiles for quick executive-level decision-making.

Retail Sales Data Analysis – Python | [Python](#), [Pandas](#), [NumPy](#)

- Analyzed 9,994 rows of Superstore retail data to uncover top-performing product segments, regions, and customer cohorts.
- Identified that the West region contributed 32% of total profit; flagged the Furniture category as a consistent loss-maker.
- Generated 10+ visualizations (bar charts, heatmaps, trend lines) to communicate insights clearly.

Business Intelligence Dashboard – Power BI | [Power BI](#), [DAX](#), [Power Query](#), [Data Modelling](#)

- Designed an interactive multi-page Power BI dashboard with drill-through filters and cross-report navigation.
- Wrote custom DAX measures for Year-over-Year growth, rolling averages, and dynamic KPIs.
- Modelled relationships across 3+ data tables to enable seamless cross-filtering and slice-and-dice analysis.

CERTIFICATIONS

Microsoft Excel – Simplilearn

Covered advanced Excel functions, Pivot Tables, data validation, and automation with Macros.

Data Analytics – Simplilearn

Covered end-to-end data analytics lifecycle: data cleaning, EDA, visualization, and reporting.

Data Analytics Job Simulation – Deloitte

Completed real-world analytics tasks simulating a Deloitte analyst role; worked with data forensics and dashboard creation.
